

State 2nd German Reich

21 Points about the actual Situation in Germany

21 POINTS About The Actual Situation in Germany

1. Since the end of World War II, Germany, i.e. the state "German Reich" has not been and still is **NOT** a sovereign state but is still under military occupation of the allied forces mainly under the leadership of the United States of America as the main victorious power. It was confiscated in effective immediately on 13.02.1944, entered into force on 09.05.1945 (cf. Article 1 of the SHAEF Law No. 52 of the U.S.A). All reserved rights and privileges of the Allies mentioned in there are **unrestricted and valid** until today. This has been **confirmed** again by the Allies in the "Agreement for the solution of certain questions in reference to Berlin" of 25. SEP. 1990 [BGBl.1990, part II, page 1274]. This was after the so-called unity agreement between the "Federal Republic of Germany" (FRG) and the "German Democratic Republic" (GDR) [Einigungsvertrag] of 31. AUG. 1990! What is true and valid for the conquered German Reich capital, is true and valid for the conquered German Reich as well!

Thus, point 6 of the preamble clarifies:

„Considering the necessity to agree upon appropriate solutions in certain areas, which do **NOT** affect the German **sovereignty** with respect to Berlin....."

And in article 2 it says:

“**All rights and obligations**, which have been originated or stated or which have been founded or declared **by the allied authorities**, whether by legislative, by legal or by administrative means in or **with respect to Berlin are and will remain in force in all respects according to German laws** without consideration whether or not they have been founded or stated in accordance with other laws and ordinances. These rights and obligations will be subject, to the same legislative, legal or administrative acts as analogous rights and obligations according to German laws without discrimination.”

Furthermore, article 4 states:

“**All verdicts and decisions** decreed and having passed **by allied authorities** or by an appointed court or a legal committee before an invalidity of the laws and responsibilities of the Four Powers in or **with respect to Berlin** will remain valid and unappealable to all intents and purposes under the German legal system and will be considered by German courts and authorities as verdicts and decisions of German courts and authorities.”

2. Up to this day, Germany has **no** legally valid **peace treaty** with its opponents of World War II, neither with the four allied occupying powers nor with any other state. Due to the articles 53 and 107 of the Charter of the United Nations we are still in the state of war under any aspect of international law. In the SHAEF Law No. 3 (SHAEF = Supreme Headquarters Allied Expeditionary Forces), issued by the Military Government Germany - control area of the Supreme Commander - confirmed and issued on 15. NOV. 1944, the following

nations acknowledge the U.S.A. as Supreme Commander, as the main victorious power and, therefore, the ongoing state of war:

Australia, Belgium, Bolivia, Brazil, Canada, Chile, China, Colombia, Costa Rica, Cuba, Czechoslovakia, Denmark, Dominican Republic, United Kingdom of Great Britain and Northern Ireland, France, Abyssinia, Egypt, Ecuador, Greece, Guatemala, Haiti, Honduras, Iceland, India, Iran, Iraq, Liberia, Luxembourg, Mexico, the Netherlands, New Zealand, Nicaragua, Norway, Panama, Peru, Philippines, Poland, El Salvador, Saudi Arabia, Turkey, Union of South Africa, USSR, U.S.A., Uruguay, Venezuela, Yugoslavia, resp. their successors. Germany has only reached a ceasefire down to the present day.

3. The three allied occupying powers in Berlin decided at their meeting on 2. AUG. 1945 - probably known to you as the Potsdam Conference - to re-establish the German Reich as a sovereign state within the borders of 31. DEC. 1937 - (cf. SHAEF Law No. 52, article VII No. 9, para. e.) after an occupational period and a peace treaty at a certain date to be determined. This has never been changed. The "Federal Republic of Germany" (FRG) and the "German Democratic Republic" (GDR) were founded as makeshift entities for mere administrative purposes. They have never been autonomous states by means of international law, nor were they ever recognized as such. They were never legal successors of the German Reich! Even the German Federal Constitutional Court as well as other German federal courts have stated this in their decrees 2 BvL 6/56, 2 BvF 1/73, 2 BvR 373/83; BVGE 2,266 (277); 3, 288 (319 a.f.); 5.85(126); 6, 309, 336 and 363.

4. By reason of article 43 of the Hague Land Warfare Convention of 1907 (published in the RGBl. in 1910) the occupational provisional entity "Federal Republic of Germany" did not get a constitution voted for and accepted by the people, but just a "temporary law" (Grundgesetz). A temporary law is "a provisional arrangement for the preservation of law and order in a military occupied area for a particular time." This merely provisional nature of the "Basic Law FOR the Federal Republic of Germany" (and not a "Constitution OF the Federal Republic"!) is stated in its article 146. It says: "This constitution will become invalid at the same day when a constitution becomes effective which has been decided upon by the German people in a free decision." The "Federal Republic of Germany" binds itself in article 25 of its temporary law to recognize the general rules of the international law. They are an integral part of the federal law. They precede other laws and create immediate rights and obligations for the residents of the federal territory. The Hague Land Warfare Convention is a contract under international law and is superior to the "Basic Law for the Federal Republic of Germany".

5. The Hague Land Warfare Convention determines a maximum of 60 years for the occupation of a country. The winning power has the obligation to sign a peace treaty, otherwise it violates international law. Even in the U.S.A. real estate sales have to be checked retrospectively for sixty years for this reason. As long as the Federal Republic of Germany (FRG) prevents (hinders) by its policy the transfer of governmental responsibilities to the Chancellor of the German Reich, it is fostering a war against Germany.

Therefore, only two options remain for the U.S.A.:

- a) peaceful change of governmental responsibilities will happen in the FRG, which will enable the U.S.A. to sign a peace treaty with their former opponent of war; or
- b) in order to secure their entitlements, the U.S.A. unfortunately would have no other choice but to re-occupy Germany in a new war against it, with all the need, misery, harm, and starving; which means that those sixty years mentioned before would start anew.

6. The state German Reich has never ceased to exist as a subject of international law. Only the German armed forces have signed the "unconditional surrender" on 8 MAY 1945 in Berlin-Karlshorst, but not the German Reich. The German Reich was and furthermore is without interruption an international personality, but has - as a national entity - legal capacity only, if an institutional organization is available and existing. This has been decided by the Federal Constitutional Court as well as by other German courts with verdicts 2 BvL 6/56, 2 BvF 1/73, 2 BvR 373/83; BVGE 2,266 (277); 3288 (319 I); 5.85 (126); 6, 309, 336 and 363. In the meantime, these verdicts have never been revised and did not become obsolete due to the

political changes throughout Europe. The occupational provisional entity "Federal Republic of Germany" is and was never identical with the German Reich and therefore could not become its legal successor.

7. The only authority capable to decide about territorial and national concerns is the government of the German Reich. No representative of the occupational provisional entity "Federal Republic of Germany" or the occupational provisional entity "German Democratic Republic" nor any institution of those has ever been entitled to decide about Germany as a whole. This means in plain text, that the cession of parts of German territory, e.g. to France, Poland and Russia by representatives of the entity "Federal Republic of Germany" is impossible since it is illegal and therefore incorrect from the beginning. These areas referred to remain to be parts of the German Reich and will be returned after the recovery of its full sovereignty according to international law.

8. Berlin has never been and **still is not** a "state" of the "Federal Republic of Germany". This has been made clear by the military governors in para. 4 of their letter of approval to the temporary law dated 12 MAY 1945 when it states expressis verbis that Berlin is not a state of the Federal Republic of Germany. Also in the letter of acknowledgement of the Allied Kommandatura to the constitution of **Berlin**, BK/O (50) 75 of 29-8-1950 (VOBl. I page 440) in connection with BK/O (51) 56, para. 2 of 8-10-1951 the allies suspended:

para. 2

(where is said that Berlin is a state of the Federal Republic of Germany)

and

para. 3

(which says that the Basic Law and the laws of the Federal Republic of Germany are binding for Berlin according to article 1 of the Berlin constitution of 1 SEP 1950).

These facts have been confirmed **once again** in the "Agreement for the solution of certain questions in reference to Berlin" of 25 SEP 1990 [BGBl. 1990, part II, page 1274]. The citizens of Berlin (in both East and West) are not citizens of the "Federal Republic of Germany"! And once again: What is valid for the capital of the German Reich is also valid for the whole German Reich.

9. The U.S.A. as the main victorious power of World War II confiscated among other things the "Reichsbahn" (i.e., the national railroad) as separate assets of the German Reich. The "Provisionary Government of the German Reich" has its official residence at Königsweg No. 1 (not No. 4), 1000 [14163] Berlin -- Zehlendorf 1. This house is part of the confiscated separate assets of the German Reichsbahn. The "Provisionary Government of the German Reich" began its work by will, by order and by approval of the U.S.A. on 8 May 1985! This - among other things - was recognized by the District Court of Berlin in a verdict under the case number 13.0.35/93. The "Provisionary Government of the German Reich" is **the only** wanted, appointed, and approved government of the German Reich by the allies, represented by the U.S.A. as the main victorious power. All government representatives and all other officials of the German Reich are subordinated to the control and the approval of the American armed forces, at last to the president of the U.S.A. as supreme commander and are sworn into office by oath.

10. With cancellation of the preamble and of article 23 by the former Secretary of State Mr. James BAKER in Paris on 17 JUL 1990, the territorial scope of the "Basic Law for the Federal Republic of Germany" became **extinct** as of 18 JUL 1990 (cf. BGBl. 1990, part II, pages 885, 890, of 23 SEP 1990). This was possible only because of the reserved rights of the allies. This completed the governmental task of the "Federal Republic of Germany" which was held since 23 MAY 1949. Since then – 18 JUL 1990 – the occupational provisional entity "Federal Republic of Germany", which for 41 years had to administer the German people only as trustee for the Western allies, does not exist any more! Therefore, all governmental decisions and legal acts of the government of the so-called "Federal Republic of Germany" and its agencies since its expiration on 18 JULI 1990 are illegal.

Passports, identity cards, driver's licenses, motor vehicle registrations and license plates as well as all since then enacted laws, ordinances etc. of the "Federal Republic of Germany" are null and void for citizens of the German Reich. Since the "Federal Government" is not ruling based on a constitution accepted by the people

in a free decision, it is a DICTATORSHIP. All officials and representatives of the "Federal Republic of Germany" are committing treason or high treason against the German people and the existing German Reich! All individuals and legal bodies in Germany fighting for the remedy of this grievance, may, are allowed to, and have to claim to be extraterritoriality. In 1990, the governmental officials of the "Federal Republic of Germany" had been informed about this by the Provisional Government of German Reich with the support of the victorious powers and had been ordered to inform all subordinate authorities. Additionally, all authorities of cities and municipalities of the "Federal Republic of Germany" with more than 40.000 inhabitants had been specifically informed about these facts by the Provisionary Government of the German Reich; it was pointed out that a denial of those facts and further holding on to the claim of the "FRG" to be the only legitimate representative as successor of the German Reich fulfills the statutory definition of treason or high treason

11. All contracts and treaties with other countries and other international organizations, signed by the extinct "FRG" and its representatives since 18 JUL 1990 are null and void. Therefore, they are neither binding for citizens of the no longer existing "Federal Republic of Germany" nor for citizens of the German Reich, nor for the respective contracting party. This also establishes the present situation for the contracting parties in the EU with Germany. The Berlin Welfare Tribunal (Reference No. S 56 AR 239/92) stated on 19 MAY 1992 in the decision of a negating lawsuit, that the so-called "reunification treaty" of 31 AUG 1990 (BGBl. 1990, part II, page 890) is incorrect since one cannot join to something, that was already disbanded on 17 JUL 1990. Article 1 of the "Unification Treaty" (Einigungsvertrag) says that based on article 23 of the "Basic Law" the states of Brandenburg, Mecklenburg-Western Pomerania, Saxony, Saxony-Anhalt, and Thuringia are becoming states of the "Federal Republic of Germany" as of 3 OCT 1990. Since this article 23 had been abolished by the Allies already on 17 JUL 1990, a legal accession of the former GDR was at no time possible. For the same reason no citizen of the former GDR could join the operative territory of the Basic Law. Moreover, the print media in the FRG publish the Unification Treaty always without the protocol note. This protocol note to the Unification Treaty says: "Both parties agree that the treaty will be determined notwithstanding the rights and responsibilities of the Four Powers with respect to Berlin and Germany as a whole still existing at the time of signing, as well as the results of the talks about the outer aspects of the completion of the German unity still being due."

12. The "Weimar Constitution" of 11 AUG 1919 is the valid legal basis for all citizens of the German Reich since it is the only constitution assumed by the German people in free elections. It is valid in its version of 30 JAN 1933 with the changes of 22 MAY 1949 by the allied legislation. The background for this is, that

- (1.) Hitler became chancellor on 31 JAN 1933, and
- (2.) the National Socialists abrogated the constitution 1935 by the "Law for conformity

of the States with the Reich" and with the creation of the state of Saxony-Anhalt. Up to then, Anhalt was the "Free State of Anhalt" with the city of Dessau as capital, and Saxony was a Prussian province. On the one hand, the "Federal Republic of Germany" fights against the glorification of National Socialism, but on the other hand, she glorifies National Socialism herself because she also created a state of Saxony-Anhalt.

13. The constitution of the German Reich is the only valid legal basis of the German people since 18 JUL 1990. It is valid in the entire area of the German Reich within the borders of 31 DEC 1937, as stipulated in SHAEF Law No. 52 (articles VII No. 9, para. e. in connection with the 1st London Protocol of 12 SEP 1944). All the persons born within these borders are Germans and citizens of the German Reich in accordance with the Nationality Act of 22 JUL 1913 (and even

according to article 116 of the FRG's temporary law). The Berlin citizens in both East and West are and always were citizens of the German Reich since 11 AUG 1919, this also on reason of the special status of the imperial capital of Berlin, given by the Four Powers.

14. Every person born inside the German borders of the German Reich of 31 DEC 1937 is a citizen of the German Reich!!! Thus, all these people may apply for personal documents of the German Reich at the Ministry of the Interior, Koenigsweg 1 (not 4!), in 1000 [14163] Berlin-Zehlendorf (phone 0049 – (0) 30 – 802 91 66 , see final note) without any difficulties, consequences or reprisals on the part of the authorities and institutions of the extinct “Federal Republic of Germany”.

(Forms may be requested there, or may be downloaded on the internet pages www.der-reichskanzler.de or www.deutsches-reich.com)

Citizens of the German Reich are extraterritorial with regard to the “FRG”.

They are subject under the aspects of

- a) civil rights in accordance with article 50, sentence 1, EGBGB of 29 NOV 1952; (BGBl. I p. 780, corr. p. 843)
 - b) General and administrative ordinances in accordance with section 3, para. 1 FGG of 12 SEP 1950 (BGBl. p. 455);
 - c) criminal law in accordance with section 11, para. 1 sentence 1, StPO of 7 APR 1987 (BGBl. I, p. 1074, corr. p. 1319);
 - d) common law & equity in accordance with section 15, para. 1 sentence 1, ZPO of 12 SEP 1950 (BGBl. I, p. 533);
- and
- e) judicial procedures in accordance with section 71, para. 2 sentence 1 and in accordance with section 20, para. 1 GVG of 9 MAY 1975 (BGBl. I, p. 1077)

not to the authorities and jurisdiction of the de jure extinct and **not any more** existing “Federal Republic of Germany” !!!

15. Every administrative act of the authorities of the since 18 JUL 1990 extinguished “Federal Republic of Germany” on citizens of the German Reich and their property is an illegal infringement and a violation of sovereignty and therefore liable for compensation. This compensation has to be done by those persons signing or having signed the administrative decisions since “officials” of the “Federal Republic of Germany” are not officials any more since 18 JUL 1990. They have to be considered as private persons assuming authority without legitimation from the legitimate provisional government of the German Reich to perform legal or administrative acts or other legal measures. These private individuals pretending to be officials without definitely being such have to be reported to the U.S. Department of Justice due to performing terrorist acts against the best of interest of the U.S.A. A form can be requested at the Reich-Chancellor's Office, Provisionary Government of the German Reich, Koenigsweg 1 (not 4!), 1000 [14163] Berlin-Zehlendorf (phone 0049 – (0) 30 – 802 91 66, see final note). All payments, services and physical or material assets demanded by authorities of the “Federal Republic of Germany” since 18 JUL 1990 have been collected illegally and are an unjustified, immoral enrichment of the demanding individual. Every German possesses the rights and has the obligation to claim those payments and services rendered. Claim forms (e.g. for tax refunds) are available and may be requested at the Reich-Chancellor's Office, Provisionary Government of the German Reich.

16. Since 18 JUL 1990, it is no longer possible for the authorities of the extinct “Federal Republic of Germany” to legally deliver letters (like decisions or alike) with sovereign content. Legal delivery requires an official to deliver such letters of sovereign character. The authorities/courts etc. of the “Federal Republic of Germany” have only the possibility to utilize the services of the privatized German Mail or other private courier firms. Since bailiffs also are no officials, the officials of the “Federal Republic of Germany” cannot

have official letters legally delivered by this way. It is, moreover, fundamental, that the authorities/courts etc. of the "Federal Republic of Germany" cannot deliver letters of sovereign content to citizens of the German Reich, since these are EXTRATERRITORIAL (according to article 20 GVG, art. 3 FGG, art. 50 EBGB, art. 11 StPO and art. 15 ZPO). Also, the "Federal Republic of Germany" cannot have letters with sovereign content legally delivered by a "federal" bailiff, due to the extraterritorial character of the recipients.

17. A visible sign of the extraterritoriality of Berlin towards the "Federal Republic of Germany" was the fact that district recruiting offices, existing until 17 JUL 1990 in the "Federal Republic of Germany", were not allowed to mail draft orders or other mail to BERLIN. Since the allied reservations are still in force, no citizens of BERLIN as well as citizens of the German Reich may be drafted for military services in the not any more existing "Bundeswehr" (cf. "Letter of approval to the Basic Law" of 12 MAY 1945; the protocol note to the "Unification Treaty" of 31 AUG 1990; and the "Agreement for the solution of certain questions in reference to Berlin" of 25 SEP 1990).

18. With expiration of the territorial scope of the "Federal Republic of Germany", the institution "German Federal Bank" disappeared like the financial autonomy of the "Federal Republic of Germany".

Therefore, every group of individuals or corporate bodies must exclusively use Deutsche Mark (DEM) or U.S. Dollars (USD) with an exchange rate of 2 to 1 for their business affairs, according to the "Official Bulletin of the Military Government of Germany (American Control Area)", Law No.: 61 - First law to re-organize the monetary system - in connection with Law No.: 67 - Endowment of the territorial authority of Greater Berlin with cash funds. Furthermore, no German has the obligation to pay back putative debts with several places of billions or the interest for those, which a no more existing "Federal Republic of Germany" raised from whichever bank.

19. The government of the extinct "Federal Republic of Germany", in power by ballot-rigging, has sold since the decline of the "FRG" on 18 JUL 1990 state owned property confiscated by the U.S.A. Among these are German Mail with Telekom (Reichspost) and their real estate, German Railroad (Reichsbahn) and its real estate, etc. This was illegal ab initio, and these transactions have to be reversed, therefore. These properties will be owned by the German Reich again once a peace treaty has been signed.

20. Right now, there are no authorized lawyers and notaries available. For this reason, legal advisors pursuant to the legislation of the German Reich and for Prussia legal consultants as well are being trained. These selected individuals are at present the only legal specialists approved and admitted by the U.S.A. and the Provisionary Government of the German Reich. Please consult trustingly these persons in order to be properly presented according to national laws. A list of these persons is displayed at the Reich-Chancellor's Office: Deutsches Reich, Buero des Reichskanzlers, Koenigsweg 1 (not 4!), 1000 [14163] Berlin-Zehlendorf (phone 0049 - (0) 30 - 802 91 66, see final note). The list may be requested there, or may be downloaded on the internet pages www.der-reichskanzler.de or www.deutsches-reich.com.

21. In accordance with the Allied Kommandantura Berlin [BK/O (47) 50 of 21-2-1947], changes in the real estate register (also known as land register, land title register = Grundbuch) are possible only with consent of the allied authorities. All real estate transactions in entire Germany are null and void ab initio, particularly after 18 JUL 1990.
